Course Title	Typical Length
Business Technology Update	3 ½ hours

Short Description	Typically Recommended For		
	Planning & Evaluation	Inception & Start Up	Operating Businesses
A practical session designed for small business owners and managers to get updated on what's new, what's important, and what's useful in business. This workshop focuses on explaining how each of these technologies is useful and cost beneficial in a small business setting, and is presented with minimum jargon and techno-babble.		yes	yes

Detailed Course Description	
<p>The course will change each time it's offered and participants will be encouraged to return at least annually to learn about the newest developments. It is necessarily a summary overview of each topic and the presentation will move quickly, but handout materials will help the participants follow and understand. Various products (i.e.; Window 7, etc.) will be demonstrated.</p> <p>Topic covered:</p> <ul style="list-style-type: none"> * Hardware updates - power, capacity, features & prices of current systems * Mobile computing update - power & information on the move * The latest in Internet and Web technologies * Small business networking - update * Cloud computing & SaaS (Software as a service) - basic introduction * Business accounting software - update * The paperless office 	 <p>Instructor Greg Kubin</p>
